MLA REPORT

Greetings, Consul and surrounding communities,

Our Government has moved to reinstate the Provincial Sales Tax (PST) exemption for agriculture, life and health insurance premiums. We made the commitment after listening to Saskatchewan people, and we will keep it while maintaining our 3-year plan to balance the budget. The exemption, which is retroactive to August 1, 2017, covers agriculture, which includes crop, livestock and hail insurance premiums as well as individual and group life and health insurance premiums. The Ministry of Finance will be working with the insurance industry to determine the best way to refund individuals and businesses that have paid PST on these premiums. More information about how the refunds will be administered will be available by April 10.

Reinstating this exemption is part of our commitment to help families and small businesses save money, invest and help our province grow.

Over the next month we will continue to work on the budget, announcement in April, to ensure we continue to work towards a balanced budget by 2020 while trying to keep a little strain off the people of the province.
