MLA REPORT

Your Saskatchewan Party government maintains its focus on growth and opportunity because a strong economy is essential to strengthen communities and make life better not just for ourselves, but for our friends, neighbors, and future generations.

Today, schools and hospitals are being built, SaskTel is expanding its High-Speed Fusion, highway safety is a priority, young people and professionals are staying, others are moving here to raise their families and build a life, and wait times for surgery are a lot better than they once were.

This fall thousands of students in the province started another school year in a brand-new school, built for them and thousands of future students.

One year ago, we celebrated the completion of 18 new joint-use schools that will provide space for more than 11,000 students and remain in like-new condition for the next 30 years, thanks to our government's innovative P3 contracts.

Our commitment to modernizing healthcare infrastructure has resulted in an investment of approximately \$1.5 billion. This includes the completion of two new hospitals, 14 long-term care facilities, and ongoing capital for the construction of two additional hospitals.

This year, SaskTel expanded its High-Speed Fusion Internet to 35 additional rural locations in the province, completing Phase 1 of our government's plan to provide communities with enhanced access to high-speed internet services.

As part of Phase 2 of this plan, SaskTel is working to improve 4G LTE cellular services in 100 rural Saskatchewan communities through the deployment of a small cell site solution, with the first 50 communities expected to be complete in the spring.

Our government is moving to a single procurement service for the nearly \$2 billion worth of goods and services procured every year. This is estimated to result in significant savings thanks to increased coordination, while ensuring the best value for taxpayers and fair treatment for Saskatchewan suppliers.

I am also pleased to say that Saskatchewan recently signed a bilateral agreement with the Government of Canada to provide nearly \$900 million for infrastructure projects over the next decade. This agreement will result in long-term infrastructure investments that will create jobs and enhance the quality of life for people around the province.
