The R.M. of Reno No. 51 is accepting tenders for the 2020 yearly contract for **weekly cleaning** of the R.M. office. This job would include vacuuming, washing floors, dusting, cleaning bathrooms and wiping surfaces. Tenders will be accepted until 4:30 p.m., Friday, December 6, 2019. Please submit applications to: Tracey Schacher, Administrator. R.M. of Reno No. 51, Box 90, Consul, SK, S0N 0P0. Phone 306-299-2133. Fax: 306-299-4433. Email: rm51@sasktel.net The R.M. reserves the right to reject any or all tenders. Lowest tender not necessarily accepted. If you have any questions or require more info, please call the R.M. office.

The R.M. of Reno No. 51 is accepting tenders for the 2020 yearly contract for **mowing grass** around the old R.M. office, the new R.M. office, as well as the R.M. shop. Tenders will be accepted until 4:30 p.m., Friday, December 6, 2019. Please submit applications to: Tracey Schacher, Administrator. R.M. of Reno No. 51, Box 90, Consul, SK, S0N 0P0. Phone 306-299-2133. Fax: 306-299-4433. Email: rm51@sasktel.net The R.M. reserves the right to reject any or all tenders. Lowest tender not necessarily accepted. If you have any questions or require more info, please call the R.M. office.

RM of Reno No. 51 Residents: Anyone snowplowing on municipal roads or municipal property in the RM of Reno No. 51 must fill out an **Application to Operate Snow Removal Equipment**. The application includes a list of machines and equipment to be used, name(s) of persons operating equipment and a copy of insurance coverage. Please stop by our office to get an Application Form. If you have any questions, please contact our office. RM office: 306-299-2133

The RM of Reno No. 51 would like to inform residents of the municipality that effective immediately, requests for **Fire Guarding** will be done at the current custom work rate. If you have any questions or concerns, please contact our office.

Contact us to arrange your
CHRISTMAS AD
in a December issue.

If you have one of the side ads,
we will decorate it for Christmas
at no additional charge.

Reasonable rates
for all other Christmas ads.

December issues will be December 5 & 19. Contact info-page 4.

notices

The **Nashlyn Grazing Corp.** would like to thank everyone who applied for Grazing in Nashlyn Pasture. The response was overwhelming. Only the successful applicants will be notified.

Consul Curling Club would like the community to know that as of November 17 the plant is still not going, but we are hoping on November 18 it will be fixed. Therefore the season will not start until at least December 5. We still have room for teams in the Open league on Thursdays. Fees: adults \$90, students in league \$45. To enter a team call Doreen or Dale at 306-299-5712.

coming events

NOTICE of Reno Rascals Early Learning & Child Care Inc. 2019 ANNUAL GENERAL MEETING to be held **Wednesday, November 27** at 7:00 p.m. at the Reno Rascals Early Learning & Child Care Centre. Annual financial statements and an annual report on the past year happenings will be presented at the meeting. Not only is this a time to reflect upon and evaluate this past year but also to affirm our goals and objectives for the upcoming year. The evening will also include snacks, refreshments and a slideshow featuring the children in various play and explorative learning experiences. We welcome all families, staff and community members to attend, and we encourage both parent and community members to join the RRELCC Board of Directors.

Archery Club Paint Night on **Tuesday, December 3rd** at the Consul School gym. Open to children in Grade 6 & up and adults. Come support the Consul School Archery Club and have a fun night of painting a Christmas scene with your family. Cost is \$40 per person and we start painting at 7 p.m. Come early and check out the Scholastic Book Fair that will be happening in the Library and get some Christmas shopping done; doors will open at 6 p.m. Phone or text Megan at 306-299-7044 to reserve your spot. Hope to see you all there!

thank you

Thank you to all of the hostesses that put on such a wonderful bridal shower for me and for your generous gift. Thank you to all the ladies for coming out to celebrate the occasion. Sawyer and I are so appreciative!

Sincerely, Lindsey Zilkie

Thank you to everyone for their condolences, cards, flowers, calls, and gifts of food on the passing of our mom and grandma, Bev Dologopol. We also appreciate those who came to her celebration of life for being there and celebrating Bev with us. Your support and kindness in all these ways was much appreciated.

Sincerely,

the Dologopol & Bertram families

Our acknowledgement to DAVE ZILKIE (CONSUL SEPTIC VAC TANK SERVICE) for his in-kind donation/service! **THANK YOU** from Reno Rascals Early Learning & Child Care

AGRICULTURE INFORMATION DAY

Presented by K/T Enterprises Ltd

Tuesday November 26, 2019

MLA REPORT

Saskatchewan residents can now look at their laboratory test results and other health records online anywhere, anytime.

MySaskHealthRecord is a secure website that gives eligible Saskatchewan residents quick and easy access to personal health information such as lab results, medical imaging reports and clinical visit history, including hospital admissions. Those who register will have quick and easy access to their personal health information. They will also have the ability to add their own personal information to track and generate reports; set medication and appointment reminders; and upload information from health devices such as wearable activity trackers.

Patients and the health system will see significant benefits from things like fewer unnecessary phone calls and less time taken off work for routine medical appointments. Greater access to information also empowers patients to be more active participants in their care, and that can result in better health outcomes.

MySaskHealthRecord is open to Saskatchewan residents who are 18 years of age and older. To register, residents will need a valid Saskatchewan health card, plus a Saskatchewan Government Insurance (SGI) driver's licence or SGI photo ID card.

All personal health information in MySaskHealthRecord is safe and private. Residents who sign up will only be able to access their accounts through a highly secure, personalized login. To register for a MySaskHealthRecord account, go to www.eHealthSask.ca.

Although there have been delays in the delivery of this year's influenza vaccine, the Ministry of Health has confirmed with Health Canada that Saskatchewan will receive vaccine to support the provincial program start date of October 21. Saskatchewan residents with a valid health card can get their flu shot at public health clinics, local pharmacies, and some physician and Nurse Practitioner offices.

Flu shots are recommended for those at higher risk, including seniors, people with underlying chronic health conditions, children under five, and pregnant women. Seniors often have chronic health conditions like heart or lung disease or diabetes, and weaker immune systems, which makes them particularly vulnerable to complications from influenza.

Pharmacists can administer the free flu shot to residents five years and older, during home visits, and in congregate living settings. Children under five and non-Saskatchewan residents can be vaccinated at a public health clinic.

You can visit www.saskhealthauthority.ca/Services-Locations/flu for the most up-to-date information on drop-in flu clinic times and locations.

For a list of pharmacies that provide the free flu shot, visit www.skpharmacists.ca/site/flu-shots or ask your local pharmacy if they offer it.

Information on influenza immunization in Saskatchewan is available at www.saskatchewan.ca/flu. For advice on influenza symptoms and when to seek care, call HealthLine 811 or visit www.healthlineonline.ca.

211

211 Saskatchewan is a free, confidential, 24/7 service that connects individuals to human services in the province by telephone, text, or web chat, plus a searchable website with over 5,000 listings of social, community, non-clinical health, and government services across the province.

In addition to searching on the 211 Saskatchewan website (sk.211.ca), individuals can now call 2-1-1, text 2-1-1 or go online to chat with trained professionals to help find and navigate services they need. This access to community, health and government services is available 24 hours a day, 7 days a week, 365 days a year. Over 175 languages, including 17 Indigenous languages, are available over the phone.

Deadline for the next issue

December 2
at noon

HELIUM PLANT PLANNED FOR CONSUL

Representatives from North American Helium Inc. (NAH), Vance Blydo and Donna Bowles, met with about two dozen members of the public for an information session on October 24 at Consul Hall. Vance outlined general facts about helium then got into specifics about their proposed helium purification plant plans in the Consul area.

Helium is a colourless, odorless, tasteless, non-flammable gas. Coming in as the second lightest element and second smallest molecule, it is non-reactive and does not become radioactive. Helium's unique properties make it essential for vital technologies that affect our lives every day. For example:

- Helium is used in advanced medical imaging equipment like MRIs, providing the super cooling needed for the creation of powerful magnetic fields by these devices.
- Helium is used in a variety of advanced scientific research applications where super cooling and powerful magnetic fields are required. Applications such as mag-lev trains, superconducting electrical transmission lines, and quantum computing are all examples.
- Helium is used in space exploration and defense applications. Helium has unique properties such that it is the only gas that can be used to pressurize the liquid fuels that power the rockets driving space exploration, as well as the blimps and airships that have other applications within the atmosphere.
- Helium is required for the manufacture of semiconductors, fiber optics, liquid crystal displays and many other applications. If you ever use a computer or an Internet connection, helium was required to make the equipment and components necessary to make these products and systems work.

NAH is the most active driller of helium wells worldwide, with 13 exploration wells to date. Four wells in this area would tie into the proposed Battle Creek helium recovery plant that is planned for south of Consul (5-36-3-27W3). The company is currently finalizing the plant purchase agreement and handling notification and regulatory processes. In the latter half of next year, civil and pipeline construction would be undertaken. Plant delivery and construction is slated for the second quarter of 2021, and if all goes well, it would be on-stream by the third quarter and produce at an estimated capacity of 21 million standard cubic feet per day. During construction and into operation, NAH will source locally for its construction and operator needs. The gas will be trucked to market, one load per day, with a fleet of six to eight trucks put into use to accomplish this.

As helium cannot be stored it has to be hauled to where it can be processed in a timely manner. The nearest liquefaction plants are in Colorado, Kansas and Wyoming where it is likely that the helium will be shipped to be liquefied. As a liquid, helium can be placed in a container whereby it is then marketed globally. In the years ahead, the pinnacle of NAH would be to build a liquefaction plant in southwest Saskatchewan.

The helium in this area is found at depths of 2500 to 2800 metres. NAH targets reservoirs of helium-bearing inert nitrogen carrier gas that does not contain hydrogen sulfide, water or hydrocarbon gas liquids. This makes it easier to purify to the 99.999% level for market sales. The other gases found with the helium are safely vented into the atmosphere.

North American Helium considers itself to be a good corporate citizen. NAH will continue to grow the helium industry in a responsible manner while respecting the environmental and social impacts our projects and facilities may have. If you wish to reach Vance with any questions you may call 403-475-6095 or email at contact@helium.com. You can also check out the website at www.nahelium.com.
